NOTICE OF FILING AND PUBLIC HEARING

D.P.U. 21-124

November 2, 2021

Petition of Boston Gas Company d/b/a National Grid pursuant to G.L. c. 25, § 21, for approval by the Department of Public Utilities of its Three-Year Energy Efficiency Plan for 2022 through 2024.

On November 1, 2021, Boston Gas Company d/b/a National Grid (“Company”) filed with the Department of Public Utilities (“Department”), a petition for approval of a three-year energy efficiency plan for calendar years 2022 through 2024 (“Three-Year Plan”). The Company filed its Three-Year Plan pursuant to An Act Relative to Green Communities, Acts of 2008, c. 169, § 11 (“Green Communities Act”). The Department docketed this matter as D.P.U. 21-124.

The Green Communities Act requires the Commonwealth’s electric and gas distribution companies, and municipal aggregators with certified efficiency plans (together, “Program Administrators”) to develop, in consultation with the Energy Efficiency Advisory Council (“Council”), plans that provide for the acquisition of all available energy efficiency and demand reduction resources that are cost effective or less expensive than supply. G.L. c. 25, § 21. The Company’s proposed Three-Year Plan includes energy efficiency programs for residential, low-income, and commercial and industrial (“C&I”) customers. The proposed Three-Year Plan also incorporates the Company’s Residential Conservation Service filing pursuant to G.L. c. 164, App. § 2-7(h).

The Company’s proposed budget for its Three-Year Plan is \$690,613,880 (*i.e.*, \$206,140,245 in 2022, \$229,541,225 in 2023, and \$254,932,410 in 2024) and includes a performance incentive. If the Company’s Three-Year Plan is approved as proposed, the Company states that customers could experience the following bill impacts:

- A residential heating customer (R-3) using 121 therms per month could experience a monthly peak bill increase of \$7.24 or 3.3 percent in 2022; a monthly peak bill

decrease of \$3.25 or 1.4 percent in 2023; and a monthly peak bill increase of \$1.76 or 0.8 percent in 2024;

- A low-income residential heating customer (R-4) using 100 therms per month could experience a monthly peak bill increase of \$4.51 or 3.2 percent in 2022; a monthly peak bill decrease of \$2.03 or 1.4 percent in 2023; and a monthly peak bill increase of \$1.10 or 0.8 percent in 2024;
- Actual bill impacts may be lower for customers who participate in energy efficiency programs that lower their gas usage;
- Bill impacts for C&I customers will vary. These customers should contact the Company for specific bill impact information.

Due to certain ongoing safety measures and precautions relating to in-person events as a result of the COVID-19 pandemic, the Department will conduct two virtual public hearings to receive comments on the Company's filing. The Department will conduct two public hearings using Zoom videoconferencing:
